

SUBJECT: W.H.M.I.S.

WORPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM

The purpose of this notice is to certify that the following products from ITW Insulation Systems Canada do not require detailed labeling or material safety data sheet (MSDS) as per WHMIS legislation.

In accordance with the Controlled Products Regulations of the Federal Hazardous Products Act these products are classified as “Manufactured Articles” and as such are exempt from the WHMIS regulated requirements.

“Manufactured Article” means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

In this definition "exposure" means in a sufficient quantity to pose a hazard. Exposure is limited to toxicological hazards (i.e. Class D or Class E) and means potential for physical contact that could result in damage or potential for entry into the body by a route that could cause harm.

“Manufactured Articles” include:

- Aluminum, Stainless Steel, Galvanized Steel or Galvalume, bare, painted or with moisture retarder, stucco embossed or corrugated, in rolls or sheets.
- Aluminum, Stainless Steel, or Galvanized strapping and seals.
- Aluminum and Stainless Steel Elbow Covers and special fabrications.
- Stainless Steel Hex Mesh. & Tie Wire
- Stainless Steel Fasteners & Expansion springs
- All PVC in rolls, cut & roll, fittings.
